

MAGICRETE® molds for artificial stone pricelist

www.magicrete-molds.com

Our molds are manufactured from high-quality polyurethane with hardness ranging from A30 to A55 shore and have a service life of up to 1500 cycles (6 years). Polyurethane forms are capable of copying even the finest texture, which means that any natural material is being imitated to the smallest detail. Our forms do not require special equipment for demolding. You can visit our web-site for concrete product reference: www.magicrete.cz

Form type	Size (mm) and number of tiles in 1 form	Weight of 1 form (kg)	Area of product, from 1 form, m ²	Price for 1 form (Eur)	Type of finished product in MAGICRETE® product range
